

Anti- Corrosion G Spray

SPECJALIŚCI W DZIEDZINIE ŚRODKÓW SMARNYCH

FCH - Anti-Corrosion G Spray - Corrosion Preventive Spray

New long-time indoor corrosion preventive with ultra thin protection and slide film. Suitable for tools and work pieces, which should be provided with a thin but stable protective film. Special usable for lubricating and preserving tools, screws, machine parts, also as rust protecting agent. Caused by its water repelling properties it may also be used for wet pieces or pieces being stored in humid surroundings.

Properties :

- good anticorrosive properties
- good water resistance
- form tight film
- extremely high penetrative properties
- very good water resistance
- below protection times, if indicated, are estimated times or such achieved in certain applications. These can deviate in other applications or under other conditions drastically. The indicated values should therefore only simplify you the selection from our product range. Real protection times must always be determined in practice.
- easy to remove

Applications :

- for instruments in precision engineering for textile machinery
- for protection of tools and instruments in storage
- for protection of metal surfaces such as dies and moulds against corrosion during storage and transport
- for protection of steel tubes and profiles at outside storage
- for preservation of machines, gear boxes, turbines, vehicles, agricultural equipment
- for conservation and lubrication of wire ropes
- for chains in precision engineering
- for the preservation and sealing of cavities, even automotive cavities
- as preventive in wire drawing

Technical Datas

Color - light green

Temperature Range °C -20°C -> + 130°C

Density 15°C 810 kg/m³

soft wax

The indicated service temperatures are guide values depending on the lubricants composition and on the application. They may vary in case of special influences or ongoing use.
